BISHOP SHERMAN'S LENTEN MESSAGE

Inspiring Address on Life Being
Symbolical of the Cross and
Its Uplifting Influence

The visit of Bishop Sherman on Sunday to Coleman and Blairmore brought out large congregations to hear his Lenten message, and he spent a busy day. Arriving on the 8.30 train, he at once proceeded to St. Alban's church, where holy communion was celebrated, and at 11 a.m. he held communion service in St. Luke's, Blairmore.

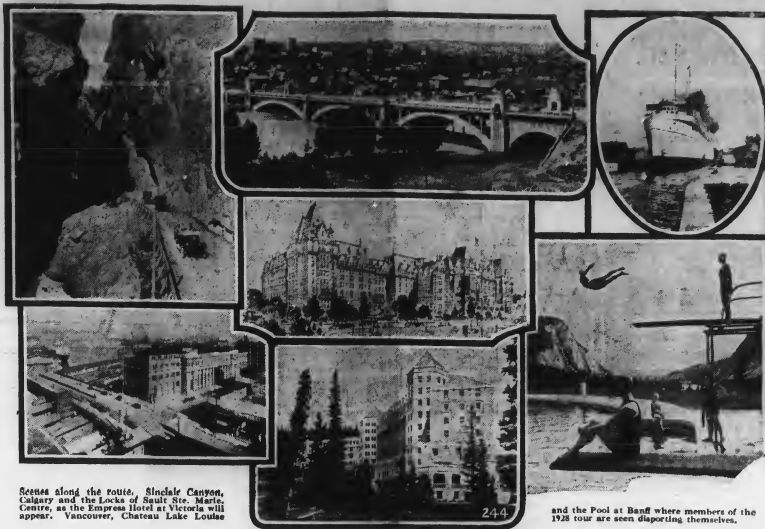

In the evening the Bishop gave an inspiring address in St. Alban's to the largest congregation on record in recent years, prefacing his sermon by thanking the parishes of Coleman and Blairmore for their splendid response to the anniversary appeal in October. It was not the response in money which counted perhaps as the important thing, though it was necessary, but there was the more permanent and satisfying fact of spiritual awakening and renewed interest of the people for their church.

He then proceeded with the theme of his sermon, dealing with St. Paul's ministry. St. Paul had tried to talk down to the people and in terms of the present day and but after all, when he came to Corinth, he found that the best way to tell people of Salvation was to give them the story of "Christ Crucified." Life all through was symbolical of the Cross, and the Lenten period should impress this more forcibly on us. There was the ambition in us all to strive for higher and better things, and at the same time there were influences trying to drag us down. Men felt they would like to open out and be of service and yet conflicting emotions of selfishness arise in their hearts. Life is a conflict, and Jesus Christ's life was a conflict in which He sacrificed himself for the sins of the world by suffering death upon the cross.

People had come to him and asked if God was a loving God, why did He permit such suffering and anguish that is visited upon them? The only answer he could give was that God gave His Son to suffer for the sins of the world, and that though it broke His heart to see such suffering, yet in His all-seeing wisdom it is decreed that we must all bear the cross at some time in our lives.

The Bishop created a heartfelt impression by his illustration of the relation the cross has to our daily lives, carrying inspiration and comfort to all who were fortunate in hearing him.

He will again visit Coleman on May 1st, when several young people are to be confirmed. He left on Sunday night's train, and during his short stay here was the guest of the Rev. and Mrs. Currie. At the close of the service he shook hands with every person as they left the church, exchanging a few words with those whom he had met on former visits here.

Scenes along the route. Sinclair Canyon, Calgary and the Lochs of Banff, St. Mary's, Vancouver, Chateau Lake Louise.

Dean Sinclair Laird of Macdonald College, St. Anne de Bellevue is better known as an educationist than a philanthropist, but he is really both. Some years ago he made a tour of the Canadian west. His time was more or less limited in planning his itinerary he was obliged to miss several points he considered worth while and to spend more time than he thought necessary in places less interesting. While he made up his mind that this condition should not obtain if he made the trip again, he was greatly thrilled by his journey. The beauty and the wonder of the Canadian west deeply impressed him and he re-

turned, as he says, with a more sympathetic understanding of the western people and problems and more thoroughly convinced that the education of a Canadian can not begin until he has seen his own country.

It was his idea that if a tour could be organized at reasonable cost, to cover all the important cities and resorts west of Toronto, and the participants were assured of relief from all the worries of travel arrangements, enough might be gained to warrant the running of a special train.

Thus the first "Dean Laird Special" came into existence and

this year, for the sixth time, in conjunction with the Canadian Pacific Railway the Dean is again organizing a de luxe all-expense tour which for a stated sum, affords the maximum of enjoyment and variety of scene and recreation that can be provided in three summer weeks.

Dean Laird devotes a great deal of time and energy to his tour and each year goes over much of the same ground, but he now knows the high spots in western travel, and carrying on year after year he feels that he is making his contribution towards a greater and more united Canada. Altogether, Mr. Laird has piloted some fifteen

hundred people through the great cities and scenes which lie between Montreal and Victoria—Banff, Lake Louise, Winnipeg, Edmonton, Vancouver—over a diversified route. He has found that, while the travellers appreciate having a special train as a home and base, they appreciate the Great Lakes and optional motor runs, so that the steamships and the motor cars are very generally used by him.

The Dean is doing a great work and the only qualifications he demands from applicants for membership in his tour are companionship and the capacity for enjoyment.

COLEMAN ONE UP ON HILLCREST

Tight Game, on Tuesday Night In
Which Coleman Wins Against
Hillcrest 2-1.

In the play-offs in B section of the intermediate league, Hillcrest defeated Bellevue last week, and this week Coleman and Hillcrest play to decide which team will go further in the provincial play-offs. On Tuesday evening at Coleman the victory went to the home team by a narrow margin, and the return game will be played on Bellevue rink tomorrow night (Friday).

Tuesday's game, refereed by Walter Scott of Blairmore, was stubbornly contested. Kubin scoring the first for Coleman in less than five minutes from the opening of the game. In the last period D'Erole scored for Hillcrest and Gate for Coleman.

Interest is keen on the outcome of tomorrow's game and it is expected that weather permitting there will be quite a following of Coleman fans go down to Bellevue.

TOWN BAND LOOKS GOOD

Coleman town band held its first practice of the season on Sunday under the leadership of James Fulton. It has 23 members, and practices will be held on Tuesday and Friday evenings at 7 o'clock in the council chamber, and on Sunday afternoons at 3 o'clock. The band has in view the annual competition at the Calgary Exhibition, and the secretary, A. G. Morris, states that Coleman will have a very much finer band than that of last year. Any person who desires may attend the practices, and will be welcomed.

A double triangle of tangled loves and lives adds the burning background of the desert. See "The Foreign Legion" Friday and Saturday.

Orchestral Association Will Enter Festival

26 Members Preparing For Crows
Nest Pass Annual Festival
at Blairmore

Coleman Amateur Orchestra Association is holding regular practices on Sunday morning at 11 o'clock in the Oddfellows hall, this being the most convenient time for the members, as it is impossible to get them together on week days owing to the members working on different shifts. The membership is about 26, and it is the intention to compete in the musical festival to be held in April at Blairmore. A number of the members are also entering in the solo contests. Andrew Wagon of Bellevue is the secretary of the orchestra, and Mrs. Currie, of the Coleman, is the association, and four of the members live in Bellevue.

There is no doubt the Coleman orchestra will give a creditable account of themselves in the festival competitions.

COAL PRODUCTION BREAKS RECORD

1,309,475 tons were sold for Alberta consumption in 1928, 2,422,729 tons to other Canadian provinces, and \$2,256 tons were exported. This constitutes the greatest output recorded in the province. Electrical power consumption in the province also shows a very marked increase, the Crows Nest area leading with 17,076,900 kilowatt hours used. The total kilowatt hours used by the entire province according to figures from government statistics was 22,182,509.

NEW PONTIAC A SUPERIOR CAR

Power, performance and luxury previously obtainable only in the big car field distinguish the new Pontiac "Big Six," latest product of General Motors of Canada, which has just been put on display in the showrooms of Sentinel Motors.

An inspection of this new car reveals that to the many features of sound basic design which in three years have brought the Pontiac swiftness to leadership among the sixes, the designers have added an impressive array of big car specifications which seem to graduate this car above the small car field in everything but price.

NOTICE RE CHANGE OF BUSINESS

All parties having accounts against the Radio Cafe, Coleman, Alberta, should send them to the undersigned by March 15, 1929, and all monies owing to the Radio Cafe must be paid forthwith. The name has been changed to the New York Cafe, Mah Quong, Proprietor.

CARD OF THANKS

Mrs. Falloon and family desire to thank all friends for their expressions of sympathy in their bereavement by the death of her daughter, Mrs. G. H. Platt, of Great Falls, Montana.

You will thrill to... a court martial in the Foreign Legion, mutiny on the desert in a man-killing sand storm; the strange triangle of father, son and a bewitching woman; awe-inspiring shots on the great Sahara; Algeria and the mysteries of a Legion of men with dead past! Fri. Sat. at Palace.

Mah Quong is the name of the new proprietor of the former Radio Cafe, and he has changed the name to New York Cafe. Considerable expenditure has been made in installing new fixtures and otherwise improving the place.

Oratorical Contest at Blairmore Friday

Coleman High School Represented
by Megan Jones in District Final

The oratorical contest to decide the winner of this district to compete in the Southern Alberta final at Calgary will take place in Blairmore on Friday evening. The contestants are: Miss Megan Jones of Coleman and Miss Lillian Drew of Pincher Creek. The chairman will be Wm. Chappell; the judges Rev. Fr. Donovan of Bellevue and Rev. Roy C. Taylor of Hillcrest; contest manager, Donald McPherson, principal of Blairmore high school. Miss Jones' subject will be "Canada Among the Nations."

A program will be given including vocal and instrumental numbers by the high school pupils, the Rhys brothers of Hillcrest, the Upton trio of Blairmore and other local talent. The contest will be held in the United church, Blairmore, and a collection will be taken to defray expenses.

Local News

Mrs. R. Carson of Winnipeg is spending the next few weeks here with her parents, Mr. and Mrs. G. R. Powell.

The Golden Star Mission Band will hold a tea and pantry sale on Sat. March 2 from 3 to 6 p.m. in the United church club room.

The L.O.B.A. will hold a sale of work and home cooking and tea will be served from 3 to 6 p.m. in the K. of P. hall on Saturday, Mar. 16, 27-28.

Charles Stevenson returned on Friday from Great Falls, Montana, after attending the funeral of his aunt, Mrs. G. H. Platt, whose death was reported last week. Mrs. Falloon, mother of Mrs. Platt, will remain at Great Falls for an indefinite period.

At the whist drive and dance held in the K. of P. hall on Saturday 20 tables were in play. The prize-winners being Mrs. W. J. White, Miss C. Fraser, Dan Griffiths, M. Gillespie. The aggregate score prize-winners for the month were Miss Mary Gillespie and R. Brown. After the whist everyone enjoyed dancing to the fine music played by Mrs. Salt's 3-piece orchestra.

Leading the
New Trend...
in power and getaway
in Style, Luxury and
Beauty

OLD motor car standards are changing—old styles and old abilities giving way to new—and as everyone knows, the creator of the new trend is this new McLaughlin-Buick.

New body lines and contours—radiant new colors—new adjustable front seat, full-width rear seat and countless other refinements in Masterpiece Bodies by Fisher.

New and improved carburetor—new constant-pressure gas pump—increased bore and stroke—greater piston displacement—and other advancements in the famous McLaughlin-Buick sealed chassis and triple-sealed engine.

And a thrilling new order of performance—an entirely new kind and degree of car operation—with elements of virility, getaway, swiftness, smoothness and stamina undreamed of a few months ago.

The new McLaughlin-Buick leads the new trend... in power and getaway—in style, luxury and beauty!

Power and Its Dangers

Down through the ages man has striven for power, and yet more power. From the biblical story of creation we learn that man was given power and dominion over the beasts of the field, and thus early in his career set out to establish his power over all the forces of nature. From that time down to the present with ever increasing eagerness and energy man has sought for power.

It is recorded of Alexander the Great that, having conquered the then known world, he sighed for more worlds to conquer. Egypt under the Pharaohs, Rome under the Caesars, Carthage, Greece, all the great empires of the past strove for power, and, having attained it, were ultimately destroyed by it. The same was true of Napoleon, and in the lifetime of the present generation it has again been proven in the case of the Kaiser Wilhelm.

By way of contrast the history of Britain during the last one thousand years may be noted. The British Empire is today the most powerful political entity in the world. It has gone on from strength to strength and increased in power, not through the autocratic use of its power, but, by a paradox, in continually and voluntarily relinquishing powers which it enjoyed to subordinate peoples and colonies, raising their status, conferring new powers on them, and accepting them on terms of equality with itself. The most dangerous period in Britain's history was when it did not pursue such a course and sought to impose its will upon the thirteen American colonies. At that time instead of gaining or retaining power, it lost it. That lesson has never been forgotten by British statesmen.

Power wielded wisely will increase, but exercised unwisely and autocratically it will destroy itself. This is just as true in the case of individuals, corporations and associations as it is in the case of rulers, governments and countries. It is especially true of monopolies of all kinds, and it is because monopolies have and do make use of their power unfairly and selfishly that there has developed such a large body of public opinion favorable to the principle of public ownership and operation of all services which in their very nature must be monopolistic, as, for example, railways, telephones, electric power systems.

In the early days of Western Canada the C.P.R. enjoyed a monopoly in transportation. It was rather autocratic; perhaps in those days it had to be, but its management was wise and far-seeing, and, in later years, gave us great power for the good of the country. It has grown still more powerful and successful, and at the same time, stronger in the esteem and goodwill of the people.

The organized grain trade of Canada wielded great power, but, not being so amenable to public opinion, it has lost much of its power. It is still inclined to be selfish and in that fact lies its danger, because it cannot be denied that it is losing instead of gaining in public favor, with the inevitable result that year by year it is being hedged about with greater restrictions and a larger measure of public control.

The same danger confronts the great banking institutions of the country, and the people are becoming increasingly restive under the steady absorption of small banks by the larger ones. The banks may, for the time being, become more powerful, but there is always a greater power, the people themselves, and the banks may succeed in becoming so consolidated and powerful, that it will become all the simpler for the people to step in and take their powers to the nation itself.

In this electrical age, water powers, coal resources, and electrical distribution systems are the very life-blood of industry. Upon them is dependent most of the conveniences of modern life. Control of electrical development means great power, both directly and indirectly. Financial magnates and captains of industry are fully alive to this fact, and there is keen competition throughout the world, and especially on this continent, to obtain such control. It means power in a double sense. It is the live question in the Dominion Parliament, the Manitoba Legislature, the Alberta Legislature now in session, as it was the outstanding question before the Saskatchewan Legislature recently prorogued. It is the biggest issue in Ontario and Quebec, and the outstanding problem at present affecting the relations of Canada and the United States.

In Ontario the controlling factor are the people themselves through their Provincially-owned system. The Saskatchewan Government has adopted the same policy. But unfortunately it has not done so in Manitoba and Alberta. And now come reports that United States interests are seeking to secure control of Canadian companies operating in the west, which would have the effect of bringing this country within the tentacles of the big American Power Trust.

In the first place, and most important, governments and people of western Canada should be alert to prevent any such absorption, and, in the second place, the big power interests should fully realize that, if they overstep the mark, the people will take the matter into their own hands and take back to themselves in the name of their governments, the resources and power to be developed and managed in their own interests.

Finally, a word of warning to corporations and associations generally. It is possible through large memberships and the accumulation of great assets to become powerful. Such power, as already stated, wisely employed, is a good thing and may bring greater power and influence. But here, too, are found elements of danger. There may arise a demand by some to use this power for other purposes and in other ways than was originally intended to attempt to exercise that power in other fields. To do so is to invite disaster, because, as all history proves, the masses of the people will not acquiesce, but, in such exercise of power, the power itself will be lost.

Rights Of Grain Growers

Courts May Determine Matter Of Designating Grain Terminals

A reference to the courts in order to determine the rights of the grain growers of western Canada in the matter of designating the terminal to which their grain may be sent is now likely, consequent upon the instructions issued to the board of grain commissioners by Hon. James Macdonald, minister of trade and commerce. The minister endorsed the suggestion of the board that such action be taken and that the expense be borne by the grain growers in this way it is hoped to straighten out the difficulties that have accumulated with regard to the contractual relations entered into between:

- (a) The farmers and their wheat pools; and
 - (b) The pools and the grain trade.
- Pending the outcome of this it is not expected that any action will be taken by the government along the lines of abolishing the board of grain commissioners, as suggested in various resolutions passed by a number of former organizations.

It is estimated that a person at the height of 5,000 feet can see approximately 90 miles on a clear day.

No Time For Train Travel

Lindbergh Finds Airplane Best Way To Get Around

When Col. Lindbergh set out on his first week in February in a flight to inaugurate the air mail service between Florida and the Canal Zone, he was asked how long it had been since he had travelled in a railroad train.

"More than a year and a half—before I flew to Paris," he replied. "Since he learned to fly, Col. Lindbergh, up to the time of the Florida-Panama flight, had covered 270,000 miles in flight. This distance is equal to about eleven times the circumference of the earth. The time he had spent in the air totaled 3,030 hours, or about four months of the ground. In 1923 he was 800 hours in the air, or more than thirty-three days. In this time his flights totaled 65,000 miles.

"I wouldn't have time to go to many places if I didn't fly," he said.

Toes Made Comfortable

Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications will make the corn dry up and fall out. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for Putnam's—the one sure relief for sore corns.

Effective Talk

If we had talked of preparing for peace in times of peace as long as we have of preparing for war in times of peace, the nations of the world would not be laboring, as they now are, under the burden of billions in taxes every year for armaments.

AFTER EFFECTS OF DREADED INFLUENZA

Overcome By The Use Of Dr. Williams' Pink Pills

Throughout Canada influenza prostrates thousands of busy men and women every winter, wrecking their health and leaving behind numerous serious ailments. It is the cause of effects of influenza that cause such widespread misery. Here is the reason. Influenza impoverishes the blood; shatters the nervous system and renders its victims liable to rheumatism, indigestion, neuritis and other nervous disorders. You can avoid the influenza by keeping the blood rich and pure with Dr. Williams' Pink Pills, or if because you have not recognized your blood weakness, the trouble resulting from influenza upon you, its disastrous after effects can be driven out by the same remedy. Dr. Williams' Pink Pills increase and enrich the blood, feed the starving nerves and thus impart new health and strength to enfeebled men and women.

Here is proof of the power of Dr. Williams' Pink Pills to banish those disastrous after-effects of influenza. Mrs. W. J. Radford, R.R. 5, Belleville, Ont., writes: "I can recommend Dr. Williams' Pink Pills because they put me on the road to health after other medicines had failed. I was in a bad condition after an attack of influenza and my friends thought that I would never get well. I tried remedy after remedy without relief till my mother begged me to try Dr. Williams' Pink Pills and got me a supply. I began using them and before they were all gone I could see they were helping me so my husband bought a further supply. I continued taking them for some time and they fully restored my health. Naturally I am always ready to recommend them to other sufferers and I never lose an opportunity to do so."

You can get these health-renewing pills through any dealer in medicine or by mail, post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wife: Henry, I'm going to give this blind man a penny. He said, "Spare a copper, pretty lady?" Henry: Go on, then! He's blind all right.

HELPED DURING MIDDLE AGE

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont.—"I am willing to answer letters from other women, to tell them the wonderful good Lydia E. Pinkham's Vegetable Compound did me. I cannot be too thankful enough for the benefit I received during the change of life to housework and my troubles made me feel that I was a friend advised me to try the Vegetable Compound. I felt great relief at once, began to regain my appetite, and my nerves got better. I will recommend your medicine to all who are troubled like I had."—Mrs. John Benson, 162 N. Christina St., Sarnia, Ontario.

Anchored in the Air

Chicago Aviator Kept Plane Motionless For An Hour

It is not unusual for a dirigible to hover over a spot for considerable time. But an aviator at the municipal airport at Chicago, recently kept a plane in the air virtually motionless for an hour. There was a 50-mile gale blowing. The aviator headed into it. He throttled his motor in such a way that the pull of the plane going forward just balanced the pressure of the wind driving it backward. The result was a complete no progress in either direction.

The experiment was interesting but it probably solves no problems, since a stiff wind is not always available for hovering purposes. Some day, however, there will doubtless be developed a device which will enable planes to stay in the air with virtually motionless. That will mean a long step toward safety.

Bread of Asthma makes countless thousands miserable. Night after night the attacked returns and even when brief relief is given the mind is still in torment from continual anticipation. Dr. J. D. Koenig's Asthma Remedy changes all this. Relief comes at once, and while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

Recipes For This Week

(By Betty Barclay)

DATE GEMS

- 1 cup flour.
- 5 teaspoons baking powder.
- 1 teaspoon salt.
- 1 cup Graham flour.
- 1 cup chopped dates.
- 1½ cups milk.
- 2 tablespoons melted butter or other fat.

Sift flour, baking powder and salt together. Add Graham flour, dates and mix thoroughly. Add milk and butter slowly, stirring constantly. Pour into greased muffin pans and bake in moderate oven 25 to 30 minutes. This makes 12 muffins.

LAMB STEW BORAKA

- 2 pounds lamb breast.
- 1 tablespoon butter.
- 2 cups canned peas or diced celery.
- 2 cups finely diced carrots.
- 4 medium onions, chopped fine.
- 2 cups cooked rice.
- 1 tablespoon minced green pepper.
- 1 cup pickled raisins.
- Salt and pepper.

Cut lamb in small pieces, remove fell (pink membrane), and simmer in slightly salted water until tender. Place with other ingredients in baking dish, add soup stock to cover, and salt and pepper to taste. Cover and bake slowly until vegetables are tender. Stir frequently and add more soup stock as needed. Serve very hot.

A Seasonal Occupation

Lady: "What is your trade?" Beggar: "I'm a picker, ma'am." Lady: "A picker? Tell me, what do you pick?" Beggar: "Well, ma'am, it goes according to the seasons. I pick strawberries in July; in August I pick hops; in September I pick pokies, and the remainder of the year I pick oakum!"

What He Must Know

A young farmer can get along very well without a knowledge of Latin or Greek, but to know how to keep something of soils, of pests, or of fungous diseases and a dozen other subjects that confront him every day. Education is necessary, but not the kind that education speaks of as disciplinary: hard knocks and adversity will accomplish that.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

A race of people in India believe that an elephant have two trunks three eyes and ten legs in the land to which elephants go after death.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1774

Harnessing the Churchill

Most Northerly Hydro Development On Large Scale In Canada

There is more than a touch of romance in connection with the announcement that early next month the first electric power will have been developed and will be available for use on the Churchill River. The Hudson Bay Mining and Smelting Company has an initial development of 2,000 horse-power almost completed to be used in connection with the work of bringing in the larger development of 40,000 horse-power which is required for the operation of the mine and smelter at Flin Flon.

There is little doubt but that this is the most northerly hydro development in Canada, at least in a major way. Island Falls, where the Churchill is being harnessed, is 450 miles north of Winnipeg. A few years ago anyone who suggested that by 1929 the waters of the Churchill would be producing electrical energy would have been looked upon as a visionary dreamer. That it has already come to pass is an other proof of the striking rapidity with which the north country is being opened up. The dark waters of the Churchill, suggestive of fur traders, canoe brigades, trappers, and the magic mystery of the north, are being turned to the prosaic task of making wheels go around.—Manitoba Free Press.

World's New Weather Bureau

Stations In Antarctic Planned By Sir George Hubert Wilkins

Twelve meteorological stations in the Antarctic regions are planned by Sir George Hubert Wilkins, explorer, to supply weather forecasts for all the world.

Wilkins announced the meteorological station which he stopped at Talcahuano, Chile, on route to New York after three months in the Antarctic.

The first station will be established at Deception Island when he returns there next November, Wilkins said.

While in the Antarctic zone Wilkins said he discovered a tract of land which is not a peninsula of the supposed Antarctic continent but a series of islands. Wilkins said he also discovered 1,000 miles of coast in the district east of the Weddel sea and was able to correct many geographical errors.

Air Force Extends North

Royal Canadian Air Force To Build A Station At Pelican

The Royal Canadian air force is to build a station at Pelican to form another link in the communication lines used in the north to co-ordinate the operation of forestry patrol planes and machines used in photographic surveys.

The air force already has stations at Comoran Lake and Norway House, and are building three more this winter. One is at Berens River, on the east side of Lake Winnipeg, one is at Lac La Ponge, north of Prince Albert, and the third is at Pelican Narrows. Ten tons of materials are being sent into Pelican for construction of the station.

AFTER ALL There's Nothing To Equal Zam-Buk FOR THE SKIN!

Fine Cough Remedy

Druggists' Will Observe Buckley's Cough Mixture Week

The week of February 28th to March 6th, is being observed by the retail druggists of Canada as "Buckley's Cough Mixture Week."

This week has been arranged by the Retail Merchants' Association of Canada and the Provincial Boards of the Retail Merchants' Association, in co-operation with Messrs. W. K. Buckley, Limited, the manufacturers. This product has been on the market for many years and because of its rapidly increasing favor with Canadians during the last few years. "The Week" is being featured this season to focus additional attention on this fine cough remedy.

A Prime Dressing For Wounds.—In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick action and does not scar the skin or burn the flesh.

Alberta Potato Growers

A New Market Is Opening Up In The Southern States

Southern Alberta potato growers have a new market opening up in the southern states, according to M. L. Freng, district agriculturist, who pointed out that while Montana was quite a source of supply in this direction, the south was beginning to look to Alberta for first class certified potatoes. An organization has been formed in Edmonton to foster this trade with the aid and approval of the Provincial Government.

Use Minard's Liniment for the Flu

A "Tramp" Aeroplane

A "tramp" aeroplane has successfully undergone its trial flights in England, having a spacious cabin resembling a railway luggage van, the huge machine can be used as a freight carrier, for the transport of troops, or as a long-distance bomber.

BRITISH PLAN TO BRING SETTLERS TO PEACE RIVER

Toronto.—The Toronto Star publishes the following special dispatch from Ottawa:

A statement published in the London Daily News to the effect that the British Government is training miners to cultivate a seventy million acre tract in the Peace River country fits the veil from one of the most ambitious colonization and development programs yet visualized for Canada.

Officially the Canadian government has no direct responsibility for the scheme. For the past three years or more financial interests of international prominence have been dealing with details of a project which embodies not only agricultural development of more than 70,000,000 acres in northern Alberta and the northwest territory immediately to the north of the Peace River, but takes into account exploitation of natural resources, oil, minerals, timber, water and power, etc., on a scale unprecedented.

It was known that the general colonization plan had been placed before the governments of several countries, but the declaration that the British Government has actually started prospective settlers upon a course to prepare them for coming to the area suggests that the general proposition has advanced further than was believed. Britain and Scandinavia are the sources from which it is hoped to derive the major settlement.

The general plan includes railways, highways and the extension of Alberta boundaries to bring in the territory for some 100 miles north of Peace River.

Will Help Marketing Of Empire Products

Chair Of Imperial Economic Relations Established In London School

London, Eng.—The Empire Marketing board has made a grant to the London school of economics to enable the establishment of a chair of Imperial economic relations. The board considers the progress of improvements in marketing of Empire products depends not merely on the development of biological sciences, which have already received considerable encouragement from the board, but also upon scientific study of the many economic problems which confront the empires in its active development of Empire trade.

The new chair will provide an authoritative centre for the study of such problems and should also increase the study of trained economists qualified to undertake practical economic research along lines calculated to benefit directly the marketing of Empire products in the United Kingdom.

Quota System For Canada

Advocates Restriction Of Immigration To The Dominions

Ottawa.—A quota system for immigrants entering Canada is advocated by Hon. J. W. Edwards (Conservative, Frontenac—Addington).

Dr. Edwards, in a resolution placed on the order paper of the House of Commons, seeks approval of his opinion that "immigration to the Dominion of Canada should be restricted by the adoption of a quota system which, however, shall not be applied to the British Isles and the United States of America and from which certain specified countries may be practically exempt."

Rattles Sale Of Railways

Edmonton.—After a debate lasting more than an afternoon and part of another, the provincial government-owned railroads of Alberta passed in to the control of the Canadian Pacific and Canadian National railroads and the Alberta legislature lost one of its greatest hopes of contention.

Lady Heath Given License

New York.—Lady Mary Heath, the British aviatrix, has received from the Department of Commerce the first aviation mechanic's license ever issued to a woman. She also got her transport license.

Lady Lodge Dead

Salisbury, Eng.—Lady Lodge, wife of Sir Oliver Lodge, the noted scientist and research worker in physics, died recently at her home near here. Sir Oliver was at her bedside.

Starts New Exploration Flight

Byrd Expedition Reports Important Discoveries At South Pole

New York.—The New York Times, The St. Louis Post-Dispatch and their associated newspapers have received a delayed dispatch from their correspondent with the Byrd Antarctic expedition telling of a new exploration flight begun by Commander Byrd over King Edward VII Land to the south of the mountains he discovered recently.

The flight was being made with two planes, a Fokker in which were Commander Byrd, Bert Balchen, pilot, and Lloyd Bertner, radio operator, and in the other Captain Parker, Harold June, pilot and navy radio operator.

The correspondent's brief dispatch was sent by dog team from Little America. The Byrd headquarters ashore, to the barque City of New York at the ice barrier, for transmission by wireless.

At the time it was sent the correspondent reported wireless messages coming from the planes showed that the flight was still in progress and already had been productive of important discoveries, which would be made known when the planes returned to their base.

Require More Radium

Small Supply Hinders Toronto Doctors In Cancer Treatments

Toronto.—Effective treatment of cancer in Toronto, other than by surgery, is materially retarded by the small supply of radium available, declared Dr. Herbert A. Bruce, professor of clinical surgery, University of Toronto, in the course of a paper delivered to the members of the Ontario Association of Medicine.

Toronto's whole supply of radium, the speaker said, consisted of the small amount of one-half gram, or about \$25,000 worth. The least amount necessary to successfully carry on a battle against the disease would be two grams, he added.

He suggested collecting a \$500,000 fund which could be used on the purchase of nine grams, an amount sufficient to enable local surgeons to effect many more cures in cancer than is now possible.

Suggests C.P.R. Branch Line Into The Pas

Moved Launched By Head Of Ross Navigation Company

The Pas, Man.—A move to have the Canadian Pacific Railway build a line into The Pas was launched here, when Harvey Weber, president of the Ross Navigation Co., and president of Transports, Limited, urged the Rotary Club to take the initiative.

Mr. Weber advocated asking the C.P.R. to build down the Carrot River Valley to The Pas, and secure joint running rights over the Hudson Bay Railway. He declared numerous prairie towns south and west of here served exclusively by the Canadian Pacific Railway would thereby get one through freight rate to Churchill instead of two rates.

Supplies For H.B. Terminals

House Told \$120,570.38 Was Spent In Halifax During 1927

Ottawa.—A sum amounting to \$120,570.38 was spent in Halifax by the department of railways and canals and the department of marine and fisheries in 1927 in connection with the activities in Hudson Bay. This was disclosed in a return tabled in the House of Commons in answer to a question by W. A. Black (Cons., Halifax). It was shown that the railway department spent \$30,336.96 with Halifax firms for supplies on account of the Hudson Bay terminals. The marine department bought \$10,721.99 worth of materials from A. S. MacMillan for the Hudson Straits Expedition; and \$139,511.43 worth from other firms in the way of supplies.

May Get Permit

Washington.—Bert Acosta, whose pilot's license was revoked by the commerce department last June may be granted a new permit, but cannot use it until April 18. Acosta, conferred here with assistant secretary of commerce MacCracken, and was advised to appeal to the department for withdrawal of the \$500 fine for violation of air regulations and then take a new examination for a pilot's license.

Irish Minister To Germany

Dublin, Irish Free State.—The first minister of the Irish Free State to Germany will be Prof. D. B. B. He is a member of the faculty of the National University of Ireland. It is the intention of the government to appoint a minister to Paris soon.

Will Discuss Resolution

House To Debate Matter Of Banning And Loading Of Wheat

Ottawa.—The unloading and binning in public elevators of certain grades of wheat is the subject of a resolution placed on the order paper of the House of Commons, by T. L. Donnelly, Liberal, Willow Bunch.

Mr. Donnelly proposes that "the grades of wheat known as Nos. 1, 2 and Northern, and 4, 5 and 6 wheat, be binned to terminal points should be unloaded and binned only in public terminal elevators, under such regulations as will prohibit mixing of the grades either in the elevator or when being loaded into boats or cars, or in transit for milling or export." The matter will come up for discussion in the House shortly.

PAYS TRIBUTE TO LEAGUE OF NATIONS' WORK

Ottawa.—There is no royal road to peace, but there are many paths which lead in the direction of peace and the Briand-Kellogg treaty is one of these paths, Premier King said during the House of Commons debate on the Kellogg-Briand pact.

Premier King paused at this moment to pay tribute to the work of the League of Nations towards peace. Touching upon disarmament, Premier King said it was true that progress toward disarmament had not been as great as one would like, but considerable progress had been made. The pact created a solemn covenant binding nations not to go to war as a means of settling differences.

The Senate of Canada has already ratified the pact.

Mr. King sketched briefly the history of the treaty, which he said, had now been accepted by 62 nations. Its fundamental origin was "to be bound in a feeling of revolt against war on the part of all nations which have had to do with war in the recent past."

The treaty did not pretend to establish machinery for the prevention of war, but it called forth from the nations of the world "a solemn renunciation of war as an instrument of national policy."

The League of Nations did not include within its membership all the nations of the world, said the prime minister, in pointing out some of the advantages of the treaty. The United States was not a member of the League of Nations, but it had signed the treaty for the renunciation of war. One or two other countries were in the same position.

Support of the treaty, coupled with a note of warning, was to be more than a dream, was the burden of the speech with which Hon. R. B. Bennett, Conservative leader, followed Mr. King.

Ramsay MacDonald

Is Feeling Fit

Denies Reports That He Is Suffering From Falling Health

London, Eng.—Right Hon. Ramsay MacDonald, Labor leader, has denied a report that he was finding his political responsibilities too heavy. It had been suggested that the Labor chief was in failing health.

He declared that as a matter of fact he was perfectly fit and was putting on weight.

Pirates!

No sailor, however, would be much alarmed if these pupils of Mary Isdale were at large upon the main. This bold bad group featured the second program at the Sea Music Festival recently held at the Vancouver under the auspices of the Canadian Pacific Railway.

CONSERVATIVE LEADER IN SENATE

Senator W. B. Willoughby, of Moose Jaw, on Feb. 8, was elected Conservative leader in the Senate at a caucus which was held in the capital.

Will Not Issue Invitation

But British Government Is Still Considering Naval Conditions

London, Eng.—Replying to a question, Sir Austen Chamberlain, British foreign secretary, told the House of Commons that the government had no intention of issuing invitation to a new conference on naval disarmament.

Sir Austen re-affirmed a previous announcement that all questions, concerning British relations with the U.S. and the naval conditions of the two countries are under consideration by the British Government.

"Our examination of this is being diligently prosecuted," he said. "As soon as it is concluded the first step will be to communicate with the Dominions."

The foreign secretary said the recent statement on disarmament in Washington made by Sir Esme Howard, the British Ambassador, was not made on the instructions of the British Government.

May Create Another Province

Tenth Province In Northern Area May Be Solution

Edmonton.—That the Dominion Government could scarcely be expected to extend the boundary of any one of three prairie provinces—Manitoba, Saskatchewan or Alberta—without dealing with all three and also with the whole of that area now administered by the Dominion as the North West Territories, was the statement of Premier J. E. Brownlie in the Legislature here.

The Premier said that while he did not wish to directly quote any person, he had gathered while in Ottawa that the disposition of the Dominion Government at present was rather to create another province from the territories than to divide them up between the other provinces.

The Premier said he was not inclined to take the reports of Saskatchewan's efforts in this direction seriously.

Will Meet In London

London, Eng.—The Marchioness of Aberdeen and Tenny, who is president of the International Council of Women, is calling a conference of rural women to meet for a fortnight, in London, from April 30 to May 11, 1928. An appeal is being made specially to Canada to send some representative rural women—this because Canada is the pioneer in organizing rural women.

Airships Ready For Tests

British Machine Has Accommodation For One Hundred Passengers

Howden, Yorkshire.—The R-100, the biggest airship in the world, being built at Howden, will undergo its first tests shortly.

Only the finishing touches to the structure remain to be made, gas bags being almost ready for inflation.

A speed of 100 miles an hour is expected to be attained by the 4,200 h.p. engines of the airship. It has luxurious accommodation for a hundred passengers. It is intended to fly the Atlantic with a full complement of passengers after the tests have been completed.

Rationing Bread In Russia

People Are Using It To Feed Hungry Cattle

Moscow.—Bread books issued by the government will govern purchase of bread after March 15, the Moscow Soviet or governing committee has decided.

The committee, which acts when the Soviet is not in session, was ordered in a resolution to work out details governing the distribution of bread under the new order.

The resolution, after stating that the red capital was amply supplied with baked bread, went on to say that the main difficulty lay in speculation and in feeding cattle with bread which was cheaper than fodder.

CONSTRUCTION OF A NATIONAL HIGHWAY URGED

Ottawa.—The railway terminal situation in Montreal must be faced "and faced in a rather large way in the very near future," Hon. Charles A. Dunning, minister of railways and canals, informed the House of Commons.

The minister was speaking during debate on the resolution of D. F. Kellner (U.F.A., Athabasca), which calls upon the government to consider making a further federal grant for the next five years highway construction.

Mr. Dunning drew attention to the fact that Canada was the owner of a large railway transportation system, and that its needs must be considered when large expenditures from the federal treasury on highways were contemplated. He did not want himself placed on record as being opposed to the construction of a national highway.

"But I do say, we must always have regard to our over two billion dollar investment on railways in providing for the development progressively, over a period of years, of a form of transportation which will tend to reduce possibility of our railways earning their own way," warned the minister.

Mr. Dunning stressed the point that the provinces themselves prefer increased subsidies to grants which are earmarked for some specific purpose, such as highway construction. They were opposed to government grants with strings attached.

Later debate was productive of an amendment from A. M. Carmichael (Progressive, Kildersley), which favored the construction of a national trunk line from coast to coast as soon as possible.

The majority of speeches favored federal aid in the construction of highways. The advantages which would accrue to the Dominion through increased tourist traffic, and the additions to the federal treasury because of the purchase of more motor cars, were mentioned as arguments for the resolution.

E. J. Garland (Progressive, Bow River), said that nothing would serve as well as a national highway to bring the east and west together. It was repugnant to think that to cross the country by automobile, it was necessary to travel part of the way in the United States on account of the roads.

"There is not a prairie member," Mr. Garland declared, "who has not experienced a thrill by the sight of a motor car with a Quebec or better still a Nova Scotia license."

Dr. T. E. Kayser (Progressive, Ontario), said the great need of the west was communication by good roads. He favored the resolution.

David Spence (Conservative, Parkdale), said he noticed that support of the resolution was only coming from his side of the house.

The members of the opposite side, Mr. Spence said, "especially the members from Saskatchewan, are sitting there as if puzzled."

In his opinion, good roads were a national welfare.

UNEMPLOYMENT INSURANCE PLAN TO BE PROBED

Ottawa, Ont.—Canada's unemployment situation and the practicability of establishing a scheme of unemployment, sickness and invalidity insurance, will be matters for exhaustive investigation by the House of Commons committee of industrial and international relations. The committee met for the first time during the present session, and laid the foundations for this research.

Henri Bourassa (Liberal-Labelle) explained to the committee Canada's unique position as a nation where seasonal unemployment was always prevalent in winter, yet such were the demands of harvest time that in the summer thousands of United States laborers crossed the border and worked in Canadian fields, he said.

Co-operation of provincial governments will be sought by the committee to bring out figures which will eliminate the unemployment conditions in Canada.

Experts will attend the next meeting of the committee to report on the family allowance and other related schemes, which is claiming the attention of the members.

Grading Of Beef

New Regulations Will Shortly Be Put Into Effect

Ottawa, Ont.—The governor-general-in-council has approved regulations governing the voluntary grading of beef offered for sale in Canada. Hon. W. R. Motherwell, minister of agriculture, announces that the regulations will shortly be put into effect and graders appointed.

The regulations provide that brands shall not be applied to beef unless slaughtered and inspected at a slaughterhouse, and bearing the meat inspection stamp "Canada Approved." All brands must be registered with the minister of agriculture and before these brands are approved, an inspection will be made of the grading of beef at the establishments where the brands are to be used.

Failure to comply with the provisions of the regulations by any establishment in selling branded beef may result in the minister withdrawing the right for such establishments to use brands. When a retailer, through his practice in storing, displaying or selling may be reducing the eating quality of the beef, provision is made in the regulations for the minister to notify by written notice the beef to stop selling to that particular retailer.

Canada's New Destroyers

Details Are Completed For First War Vessels Ordered By Dominion

London, Eng.—Commodore C. W. Rose, director of naval services of Canada, will return to the Dominion on the steamship Montclair, sailing for St. John, N.B., having concluded the final details for the two new destroyers for Canada.

The destroyers, to be completed in two years, are of the latest British destroyer type of 1,330 tons, speed 37 knots and armed with four 4.7-inch guns and two two-pounder guns. They are the first war vessels ever ordered by Canada.

Radio Plans Completed

League Of Nations Will Conduct Broadcast Trials In March

Washington.—The radio commission has received a communication from the secretariat of the League of Nations through the state department, announcing plans of the League to conduct short wave broadcast trials in March to Canada, the United States, South America, Japan and Australia.

Speeches of general interest to the world will be broadcast. The broadcast to America will be conducted on March 12, 19 and 26. "POL" is the league station and it uses a wavelength of 18.4 metres.

Will Visit Saskatoon

Saskatoon.—Viscount and Lady Willington will pay an official visit to Saskatoon, April 1, according to a notice sent to Mr. May Norman. Plans will be made to give the vice-regal party a rousing reception.

Reindeer Shipped To Canada

Stockholm.—A consignment of 300 live Swedish reindeer, the largest number ever exported at one time, has been shipped to Canada through a Norwegian port.

NOTES AND COMMENTS

Blairmore hockey team is well deserving of congratulation on its success in winning its way to the provincial championship. Though rival teams in the Pass towns have tasted defeat at their hands, yet this does not lessen the pride these teams feel in the Crow league being so ably represented in the play-offs. Their success is a tribute to good team work and effective coaching, and hockey fans and rival players will hope they have as good success in the inter-provincial play-offs if they are successful in winning the provincial championship. It is something to be proud of to have a team from the Pass as a contender for the Allan Cup, the prized trophy of senior amateur hockey in Canada.

A word about our own team. It has produced some good players during the season, and it must be remembered that several have made their first break into senior amateur hockey with credit to the team. Better coaching another season will undoubtedly make for better team work, for one or two star players cannot maintain a succession of victories. Now that Coleman has again demonstrated that it can produce a team worthy of support from the public, the important thing to remember is that next season the boys be given coaching and management which is necessary to promote harmony and effective team work in their matches.

The population in the Crows Nest Pass is very cosmopolitan, and contact between the various elements is very restricted. There are British, Belgian, Italian, Polish, Ukrainian and a smattering of other nationalities, each of which keeps largely to itself. Many have been here for years, and among the foreign born are some who can claim to be old-timers. Yet many remain in language and customs very much as they were when they came here, but the process of the so-called "melting pot" of assimilation into Canadian national life is plainly apparent in the younger generation—the boys and girls born and educated here. These younger people's impressions in early life are of their home town first and of Canada as their country. That they will become just as loyal Canadians as those of British or Canadian birth there is no doubt; in fact by the time they leave school to enter into their various pursuits in life the chances are that the casual observer would not be able to discern any difference. Some of the boys who play in our hockey and baseball games clearly demonstrate this.

Premier Brownlee in the course of remarks in the Legislature stated that if there were more complaints received regarding beer parlors throughout the province, a test would be made of public opinion, as to their continuance, by a referendum. The Prohibitionists are already urging this, and no doubt the "bootlegger" and others (Continued on Page 6)

Subscribers would help us greatly by paying their subscriptions when due, as it entails considerable time and expense to send out accounts for small amounts at frequent intervals.—The Journal.

Four of the greatest stars on the screen brought together for a gorgeous production, rich in romantic intrigue of a beautiful woman and adventuresome, dare-devil soldiers, in "The Foreign Legion" at the Palace Fri-Sat.

In the report of the shower held last week in honor of Miss Minnie Chalmers the following should have been added: Mary Garner acted as bride and Wilfrid Reid as Scottish kilted bridegroom, presenting Miss Chalmers her presents in a decorated basket. The following presents were also given in addition to those mentioned previously: J. Chalmers, electric toaster; John Morrison, carving set; Mrs. R. Mitchell, bake plate; Mrs. Garner, butter dish; Mrs. Dixon, bake plate; Mrs. Pryde, pillow cases and salt, pepper and tooth-pick holders.

"Jiggs," Mrs. Fraser's pet bull terrier, fought his last fight on Sunday. Seven or eight other dogs took a mean advantage of him and piled onto him with such ferocity that he was almost annihilated, and after lingering in pain he died early on Monday morning. "Jiggs" seemed to have borne a charmed life. A freight car struck him once, and he had numerous close calls from automobiles, but always came right side up barking for more. But mob law among dogs got in its work at last and "Jiggs" has gone to the happy hunting grounds.

The high school pupils held a social evening last Friday in the Oddfellows hall. Mrs. Altmatt furnishing the music for dancing. A very interesting program was given consisting of a song by the senior boys; the reading of the high school newspaper, by Marjorie Halliwell; piano duet by Gerlie and Gordon May; a mock wedding by Emily Greenhalgh, Bessie, and Muriel Naylor; mandolin solo by Joe Melanchuk; piano solo by Gwen Brown, humorous reading by Winifred Dunlop, and the high school orchestra.

In Ancient Greece

The Greeks were not long in following the example of the ancient Egyptians in the making of beer.

The Greeks soon commenced to improve on their knowledge of the art of brewing, and as far back as 320 B.C. the writer Theophrastus tells us that the Greeks employed barley wine or beer ("zythos") in their daily life as well as in their festive meetings.

Today malt beverages, BEER — ALE — STOUT are considered Health Drinks.

"Where BEER has once been introduced, it has generally become the national beverage."

NOTES AND COMMENTS

(Continued from Page 4)

of his ilk would prefer to see Prohibition with its evil consequences. But if a referendum is decided on, it will be because of abuses of the present system, and those operating beer parlors should be very careful to see that these abuses are promptly squelched. One does not need to snoop around to see that there are men who drink far more in beer parlors than is needed for refreshment, for they make a nuisance of themselves by their conduct. Licensees can do a lot to minimize this, for if the evil becomes too obnoxious, they will have themselves to blame if a referendum is decided on. It is a blot on community life for women and children to hear vile blasphemy and coarse language from men on the streets, and enlightened public opinion will surely register its protest if it becomes too flagrant.

The majority of people are satisfied with the existing law, and do not wish to experience the bitter controversy of a referendum campaign, with the danger of another bootlegging reign throughout the country, and the best way to avoid this is to insist that the present law be lived up to without any sidestepping.

It is very pleasing to note the interest that is taken by all classes of people here in matters musical. Coleman has a town band composed of men working in the mines; it has an orchestra also, while among the children are many of all nationalities taking lessons from private teachers. The development of the musical festival at Blairmore clearly indicates that music has a very prominent place in the hearts and minds of the people of the Crow's Nest Pass, and its benefits are manifold. It enables people to rise above the humdrum of routine, and not only inspires but furnishes a most useful recreative pleasure. There is that something in most of us that makes us wish to rise to higher and better things, and after all music is an expression of the soul of man. Jazz may come and go, but the works of the great masters live on and younger generations will derive as much pleasure from them as we of the present day.

ST. ALBAN'S CHURCH, COLEMAN

Choir practice every Wednesday during Lent at 7 p.m. Litany and address every Wednesday during Lent at 8 p.m. Holy communion Sunday, next at 11:15 a.m.

Do not forget contributions or to be present at the tea and pantry sale Saturday next, March 2 from 3-6 p.m. Mrs. A. D. Currie and her eight juniors returned from Calgary Sunday morning. Mrs. F. Thom, who was also present from the senior branch, attended both senior and junior conventions in Calgary. All report a most successful time. It is reported that Miss Eileen Richards' speech in reply to the address of welcome was splendidly given.

MASONIC SOCIAL

The Masonic Lodge held a very enjoyable social evening on Thursday, bridge being played till 10 p.m., when refreshments were served, and the remainder of the evening was spent in dancing to the accompaniment of Mrs. Altmatt's orchestra, a very snappy program being given which put everybody in first-class dancing humor. The bridge prizes were won by Mrs. Whiteside, Mrs. A. F. Short, W. Lonsbury and W. L. Rippon.

Coming attraction at the Palace—"Moran of the Marines" and "Avant-lance."

LOCAL NEWS

The christening of Dulcie May, infant daughter of Mr. and Mrs. W. H. Davis, was performed by the Rev. A. D. Currie at St. Alban's church on Sunday, the Godparents being Mr. and Mrs. Garner. After the ceremony Mr. and Mrs. Garner entertained a number of friends at the home of Mr. and Mrs. Davis' parents, Mr. and Mrs. J. Richards.

The death occurred on Tuesday of Marion Westworth, 4-months-old daughter of Mr. and Mrs. A. B. Westworth, of Cardston. The funeral will take place this afternoon.

G. G. Coote, Federal member of parliament for this constituency, was injured at Ottawa by falling on an icy sidewalk.

Jimmy Brennan suffered an injury to his face by slipping on the tracks at the International mine. Vince Hnatycky was also injured by being caught between mine cars. They were admitted to hospital on Tuesday.

The McGillivray Cup was won by H. C. McBurney's rink. Next week will likely see the close of the curling season.

Personal and Local

Prize winners at the Oddfellows and Rebekahs whist drive and dance on Saturday were Mrs. L. V. Pett, Mrs. Kilgannon, Mike Tiper and J. D'Andrea.

Be sure and get a seat early for the visit of the Westminster Glee Singers, who will come to Coleman in the near future. Further particulars will appear in The Journal.

One great and most attractive feature of the Westminster Singers is the manner in which their entertainment is presented. There is a delightful intimacy about their performances to which concert-goers have not hitherto been accustomed, and whilst their musical standard is of the very highest, they do not disdain the lighter side.

Vic Lily is an enterprising young man, and recently improved his knowledge of automobile mechanism by attending the Ford school of instruction at Calgary, at which he was awarded 95 per cent in his exams. In notifying the Coleman Garage here of the results, the company stated he was a man of high caliber and capable of looking after and servicing cars in the most approved manner. So there's a feather in Vic's cap, and Ford owners please take note.

Love, soldiers, passion, intrigue, strife—with the most desperate, fearless, fascinating company of adventurers in the wide world, "The Foreign Legion," at the Palace Fri-Sat.

CHAPTER XV.

On the third day of Donald's convalescence he was able to leave his cabin. With his arm in a sling, his face patched with plaster, he made the rounds of the mill. The men welcomed him with eager nods and smiles, many coming forward to shake his hand in silent respect. The big plant was now going at full blast. Belts snapped, logs thudded, planers roared loudly, and the great saw ripped shrilly through the big logs in a rising crescendo of sound.

Down at the siding an engine bumped noisily into a long string of flat-cars piled high with lumber. With arms akimbo, his wet undershirt clinging to his powerful torso, the mop of blond hair hanging damp on his brow, Gillis stood surveying the heavily-laden cars with an air of complacency. The lumber handlers sat about in positions of weariness, mopping their hot faces.

Gillis smiled cheerfully as Donald approached.

"Good news for you, Donnie," he said.

"What is it, Jack?"

"Last load for the big steamer," replied Gillis, as he pointed at the moving train.

"We're on time, then," cried Donald gladly.

"One day ahead," corrected Gillis. The engineer came to the cab window as the engine passed, and patted his congratulations by shaking hands with himself. The train gathered speed, and as the caboose rattled by, the conductor came to the rear platform.

"Good work, boys!" he shouted. They stood watching the train until it struck the down grade and disappeared through the cut.

"Well, that's over," observed Gillis, as he sat down heavily and wiped the sweat from his face. He looked tired and worn, but the light of victory shone in his eyes.

"It hadn't been for you, Jack," said Donald earnestly. "We wouldn't have got that order away on time. You look all in; you'd better have a good sleep."

The big man's eyes brightened at Donald's praise.

"You don't look like you'd bin to a Sunday school picnic," replied Gillis with a chuckle.

As Donald walked up the hill the whistle blew for the noon-hour, and the men trooped past on their way to the dining-room. Blackie left the ranks and walked shamefacedly to Donald's side.

"I'm sorry for the part I took in the strike, boss."

"It's all right, Blackie," interrupted Donald, "you more than made up for it. We'll forget all about that."

Blackie's face wore a relieved look as Donald gave him a hand a friendly grip.

Men in logging camps are eaten in silence and with a fixity of purpose. It is a business to be finished with as hurriedly as possible. From the time the men are seated until the chairs are pushed back, the clutter of dishes and an occasional "pass the butter" are the only sounds.

As Donald moved to his place at the table the men arose and clapped their hands. Someone called for a cheer, but Donald laughingly held up his hand.

"Men, I can't find words to tell you how much I appreciate your good work. Your long hours of overtime enabled the Company to get an important order away on time, thereby saving their prestige in a big Eastern market. You will receive double pay for every hour you worked during the week."

A low murmur of applause followed this welcome announcement.

After lunch, feeling the need of exercise, Donald made his way slowly down the hill. The severe mauling and the days in bed had weakened him to such an extent that he was forced to take frequent rests. As he turned a curve in the trail, Hater and the man with whom Andy had fought crawled stealthily from the bush, looked furtively about them then followed Donald down the hill. He reached the open glade by the fairy nest to find Connie seated in the rippling stream, her chin resting in cupped hands, and staring dreamily into the flashing water.

"Ah!" he cried gaily. "I have caught my little dryad at her orisons."

At the sound of his voice Connie sprang to her feet, her heart racing madly. Hearing a sound behind him, Donald turned to find the eyes of the Breed fixed on him in a malignant glare that chilled him to the marrow.

For a short interval the dusky orb of the Indian held his as though with a hypnotic power.

"Whew!" he ejaculated, as the Breed hobbled down the trail, "your guardian spirit does give me an awful look. Why does he hate me, Connie?"

"Joe has peculiar ways," she parried.

"What were you dreaming about, Connie?" he asked interestedly.

As she light danced momentarily in her shining eyes, and the red lips curved in a smile; "I was dreaming I was rich," she archly confessed.

"An old, old dream," smiled Donald as he stretched himself painfully on the moss.

Connie sat down near him. As always, this spot gave Donald a restful feeling. The gentle zephyrs wafted from the woods about them were so delicious and the sparkling glacial stream that rippled through the glade sang its clear, sweet song. He closed his eyes wearily.

The proximity of the man she loved, lying there with his arm in a splint, his handsome face still bearing the marks of the blows he had suffered in her defence, thrilled Connie to the depths of her warm, impulsive heart. An almost overmastering desire to touch his hair possessed her.

"What would you do if you were rich, Connie?" he queried drowsily.

Connie snuck back in the delicious moss and clasped her hands behind her golden head. "I'd buy a big trunk—one of that kind with the bulky top—and I'd fill it with silks, satins, brocades, velvets and all kinds of soft frothy things. Then I'd unpack it slowly one by one and hang them up all around the room and sit down and look at them. I'd buy a great, big stone house in London, and I'd walk down the wide marble stairs, trailing a long rustling silk gown, and I'd raise myorgette to my eyes and say, 'James, have my carriage for the day in half-an-hour.' I'd have a country place in Scotland with hundreds of dogs and horses, thousands of birds, and acres of flowers."

She paused for a moment.

"I'd take Dad and Peggy with me everywhere I'd go," she went on softly, "and I'd buy Dad millions of dollars, and for Peggy I'd buy a solid gold-mounted bicycle, and lots of warm blankets for winter instead of those old sacks. I'd buy lots of good things to eat, and lots of good clothes for all the poor kiddies in the six months."

She looked up at the hills. "And six months out of every year," she continued, "I'd live right here in these mountains and come every day

Children Like It—So Will You!

At the first sign of a Cold, Buy a BUCKLEY'S Cough Syrup. It's the first dose does two things—relieves the cough instantly and soothes the throat. Different from all other cough syrups. Cough, Croup, Whooping Cough, Bronchitis, Sore Throat, Hoarseness, and all other throat troubles. Long trouble, break everywhere you need it.

W. E. Buckley, Limited, 141 Market St., Toronto 1

75c. and 40c.

and sit beside—beside—this stream." She raised herself slowly and looked down at Donald as he lay with closed eyes. Leaning forward until her golden curls almost brushed his dark hair, her eyes rested on a purple bruise on his brow. "And," she finished fiercely, "I'd kill every man like Ole Hater."

Donald laughed sleepily. "Connie, you are a dear little girl," he said tenderly.

The endearing tone held a paternal ring, and Connie bit her lip in vexation.

"I'd like to have your father go with me to Vancouver some day. Will you go?"

(To Be Continued.)

First Turkish Dictionary

60,000 Words Listed in Newly Adopted Latin Characters

The first Turkish dictionary in the newly adopted Latin characters is to consist of 60,000 words. Spelling and phonetic pronunciation will be fixed and enforced by law. One letter has been assigned to each member of the linguistic commission entrusted with the task.

Stamboul University experts are compiling a dictionary of scientific terms previously inexpressible in Turkish, and also a medical dictionary.

The first works in the new characters put in hand by the great printing department are four new scientific works and two novels.

It is interesting to compare the new Turkish dictionary with the Oxford English Dictionary, the ten volumes of which contain 414,825 words.

His Preference

Brown was called to the police court to receive a reward for rescuing a woman from the water. "I am pleased to pin this medal to your breast," said the magistrate.

"And also to lodge \$25 to your credit in the bank as an acknowledgment of your great bravery."

Brown showed some little embarrassment, and then said: "If it's all the same to you, sir, I'd rather you pin the \$25 to my breast, and lodge the medal in the bank."

A boy judges his mother's greatness by her ability to make pies.

COUGHS & COLDS

SPHON'S

SPHON'S Cough Syrup is the most effective remedy for all coughs and colds. It is made from the finest ingredients and is guaranteed to give you relief. It is the only cough syrup that is both effective and pleasant to take.

SPHON'S Cough Syrup is available in all drug stores and health food stores.

Little Helps For This Week

"Inasmuch as ye have done it unto one of the least of these, my brethren, ye have done it unto Me." —Matthew xxv. 40.

Still whereover pity shares, Its bread with sorrow, want, And love the beggar's feast prepares.

The unwitned guest comes in. Unheard, because our ears are dull. Unseen, because our eyes are dim.

He walks our earth, The Wonder-ful; And all good deeds are done to Him.

—John Greenleaf Whittier.

We can only do a deed to God by doing that deed for Him,—only by offering ours as the hands with which it shall be done. Our human love for one another, and all our human help, is not less His for being ours.

"God's tender mercy" is the name in heaven for what we call on earth "A drink of water." Many dear things of Providence He hands to His little ones by each other. Sometimes how can He reach them else? And sometimes whom can He use but you and me?—William Channing Gannett.

A Giant Thermometer

A giant thermometer, 7 1/2 ft. high and 8 1/2 ft. broad, has been placed in the tower of the German museum in Munich, where, illuminated, it is visible for a considerable distance.

"I don't wish Jim Judd, the towns calamity howler, no hard luck," says Al Mun, "but I wish he maked climb one of the mountains he makes out of molehills and fall off."

Guard Against FLU—Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold, "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment, a serious misadventure may develop.

A simple treatment is to gargle the throat three times daily with Nerville. The antiseptic properties of Nerville quickly destroy the germs in the throat. Of course if the chest is sore Nerville should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerville will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerville and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

ASPIRIN

Aspirin is a Trademark Registered in Canada

If you ever have rheumatism, lumbago or other pains that penetrate to the very bones and joints, Aspirin offers such quick relief, and such complete comfort that it's folly to suffer. Keep these tablets handy in the house; and carry them in your pocket. Then you need never suffer long from any attack of neuralgia, neuritis, rheumatism, or from a bad headache. Aspirin is always a marvelous antidote for all pain and has no effect on the heart. Proven directions for many valuable uses in every box of genuine Aspirin. Every druggist has it.

THE CRIMSON WEST

—BY ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER XIV.—Continued.

Donald stirred as Andy applied the water, and his one good eye opened slowly. "Did I win?" he questioned weakly.

"You bet your blinkin' life you did. When Donald's gaze rested on Connie his face twisted into a wry smile. He reached for her hand and held it in a firm pressure. "Good! It's the sport," he whispered through split lips.

Connie felt as though her heart would burst. Scorching tears ran down her face, and it was with the utmost difficulty that she controlled the suffocating sobs that filled her throat.

The sound of the big mill whistle smote their ears in a wild melody of short, sharp blasts, quite unlike the decorous tone that summoned and dismissed the men.

"What's that?" asked Donald, attempting to sit up.

"The engineer is celebrating, Donnie. The men've returned to work. The strike is broken."

"Ah!" sighed Donald happily as he felt back on the pillows.

The distant hum of a gas car gradually increased to a series of staccato explosions, then died out suddenly. They heard the light rumble of wheels as it drew to a stop at the station house. There was the sound of quick foot-steps on the board sidewalk and the door opened to admit Dr. Paul. He crossed the room and took Donald's hand. "Is it true," he asked incredulously, "that you whipped Ole Hand?"

"Strike me pink if I didn't," Andy vouchsafed.

"I have patched up Hand's victim's many times," the doctor stated, "but this is the first time that I have attended his victim, and I can assure

you that it's a pleasure." He removed his coat and rolled up his sleeves. "I'll look you over," he added, then glanced significantly at Connie, who rose and left the room.

"A couple of cracked ribs, a fractured ankle, and a few hundred bruises," was the doctor's verdict a few minutes later.

The physician's deft hands soon bandaged the broken ribs and set the bone of the forearm.

"I'll go and patch up the fallen bully. I hope he's worse still," he chuckled as he left the room.

Andy stepped to the door and called in Connie.

"Don't look so frightened, Connie," smiled Donald. "I don't feel half as bad as I look."

"I'll have to go now," she said in a voice choked with emotion.

Andy accompanied her outside the door. "Ave a hite to eat, Connie?" he invited.

Connie shook her head. Now that the excitement was over, the strain of the emotion she had experienced showed in the dark shadows under her eyes and in the droop of her slight shoulders. "Andy," she began as she placed a small hand on his arm, "you—you won't say anything what—that I—"

A flood of rose dyed her tanned cheeks and her blue eyes fell in embarrassment. Andy patted her shoulder reassuringly.

"I'll never say a blinkin' word, Connie; an oyster's got nothin' on me."

Connie, visibly relieved, picked up her gun and started up the hill. Andy watched the pathetic little figure until she disappeared in the woods. For a moment he stood staring into the darkness, then shaking his head sadly, he entered the cabin.

"She's a little brack, Andy," Donald spoke wearily from his bed.

Andy glared at him. "Brick!" he repeated sarcastically. "Is that all? You big, bone-headed, blinkin' boob!"

He slammed the door as he went out to give emphasis to the remark.

"What the devil does he mean?" puzzled Donald. He turned impatiently to his side, yawned equally as painfully, then fell into a sound sleep.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain disappears. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

WINDOLITE The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant, and germ destroyer, well as a stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass. It freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants, and the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increased the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, school factories, hospitals, sanitariums, beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 120 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b. Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE

Bank in 100% sunlight. Send for booklet "WINDOLITE"

Protects Sun Life Investments

Unique Financial Position of Company Discussed by
President Macaulay in Annual Address

MONTREAL, Feb. 20.—The phenomenal growth and success of the Sun Life Assurance Company of Canada lends widespread interest each year to the annual address of the president, Mr. T. B. Macaulay. The annual meeting, which has

directors anticipated every possible adverse contingency in the money market that even a panic which would reduce the value of the assets by one hundred million dollars, would still leave untouched and unimpaired the shown surplus and reserves of the Company.

Mr. Macaulay dwelt as well in a most interesting manner upon the relative merits of the varied securities in which the insurance companies invest their funds, and of how traditional views on investment have altered owing to the changed conditions of modern business. He said in part:

"It is a great pleasure to move the adoption of this report, for the record it sets forth is a remarkable one.

"A mere statement of the increases over the figures of the previous year is impressive. In income the increase is \$41,972,000; in assets \$87,650,000; in surplus \$9,157,000; in new insurances \$112,836,000; and in total income \$408,925,000. A company with total business equal to these increases would be a large and powerful institution. It is but three years since we rejoiced at passing the milestone of \$1,000,000,000 of assurance in force, and yet already we are nearing \$2,000,000,000, while at this moment our assets exceed \$500,000,000.

"But there is another feature even more striking and important. Advance figures indicate that the increase over the previous year in the new business written by the

combined life companies of the continent was approximately 8 per cent, and the increase in the combined total in force approximately 9 per cent. Against these percentages let me place the figures of the Sun Life: our new insurances increased 34 per cent, while our total in force increased 27 per cent.

"I need not further emphasize the rapid expansion of our business. It is but a continuation, though in accelerating degree, of our normal condition. That the company is extraordinarily popular with the insuring public is evident. But people will hardly show so pronounced a preference without reason. That reason unquestionably is the great strength of the company, and its unusual profit-earning power. The earnings announced in the report are slightly in excess of \$40,000,000; but it is clearly intimated that had we desired to do so we could have taken credit for a much larger amount. We however, follow our usual conservative policy. We always have before our minds the possibility of a business depression, which might occasion heavy shrinkage in market values of all classes of securities. Mortgage securities may at such a time become totally unsaleable, but that fact is not patent; while every fluctuation in the prices at which stocks and bonds can be turned into immediate cash is quoted on the Stock Exchange."

Mr. C. J. Tompkins, Blairmore, is the local district agent.
